

School-Life Balance

for Better Learning Outcomes and *Better Lives*

We know that students and families can feel overwhelmed when homework begins to crowd out family and personal growth opportunities that take place after school.

This year, we'll be introducing policy, program, and curriculum changes aimed at protecting student and family time after school. Examples include personal coaching for teachers to help them use class time more efficiently and keep homework assignments limited to those that are most essential.

We'll also be providing more customized homework options to fit a student's learning scope and style, creating more personal ownership of their educational experience.

Enrollment Growth

We surpassed 900 students, growing by nearly 7%, with 250 students applying to the school, of whom we admitted 150. More importantly, these are AHS mission people, as you will come to know and feel when you meet them. Per our long-term growth plan, we added core classes and additional electives to accommodate this exciting growth, and look forward to the strength that each of these new families and students brings with them to AHS.

Increased Teacher Training and Support

New K-6 and 7-12 Teacher Development and Coaching Program with clinical, in-class, mentors and coaches for all of our teachers.

New P.E. & Athletic Options

Girls' and boys' tennis
Weight training and conditioning
Track and field
Equipment for these new programs has been acquired.

TENNIS

STRENGTH & CONDITIONING

TRACK & FIELD

CHARACTER

Developing hearts centered in Christ, influenced by example and refined through experience.

SCHOLARSHIP

Inspiring minds through transformational teaching and learning in the light of the restored gospel.

LIBERTY

Choosing moral self-government as the foundation of thriving individuals, families and communities.

New Courses

Introduction to Statistics

After School Spanish
Grades 4-6

Medical Anatomy
& Physiology

Introduction to Engineering

MORE EXPERIENTIAL LEARNING

Introducing Experiential Learning Days in Grades K-8!

...and two sessions of Experiential Learning for grades 9-12.

No more debating between your top two choices; take them both!

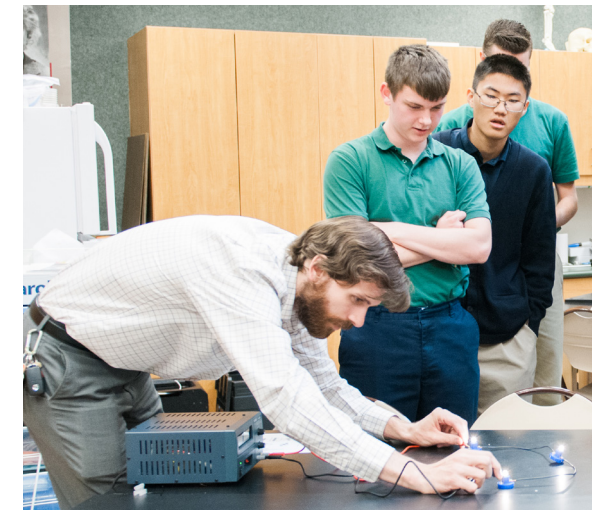

More than 8 courses to choose from!

More from AHS!

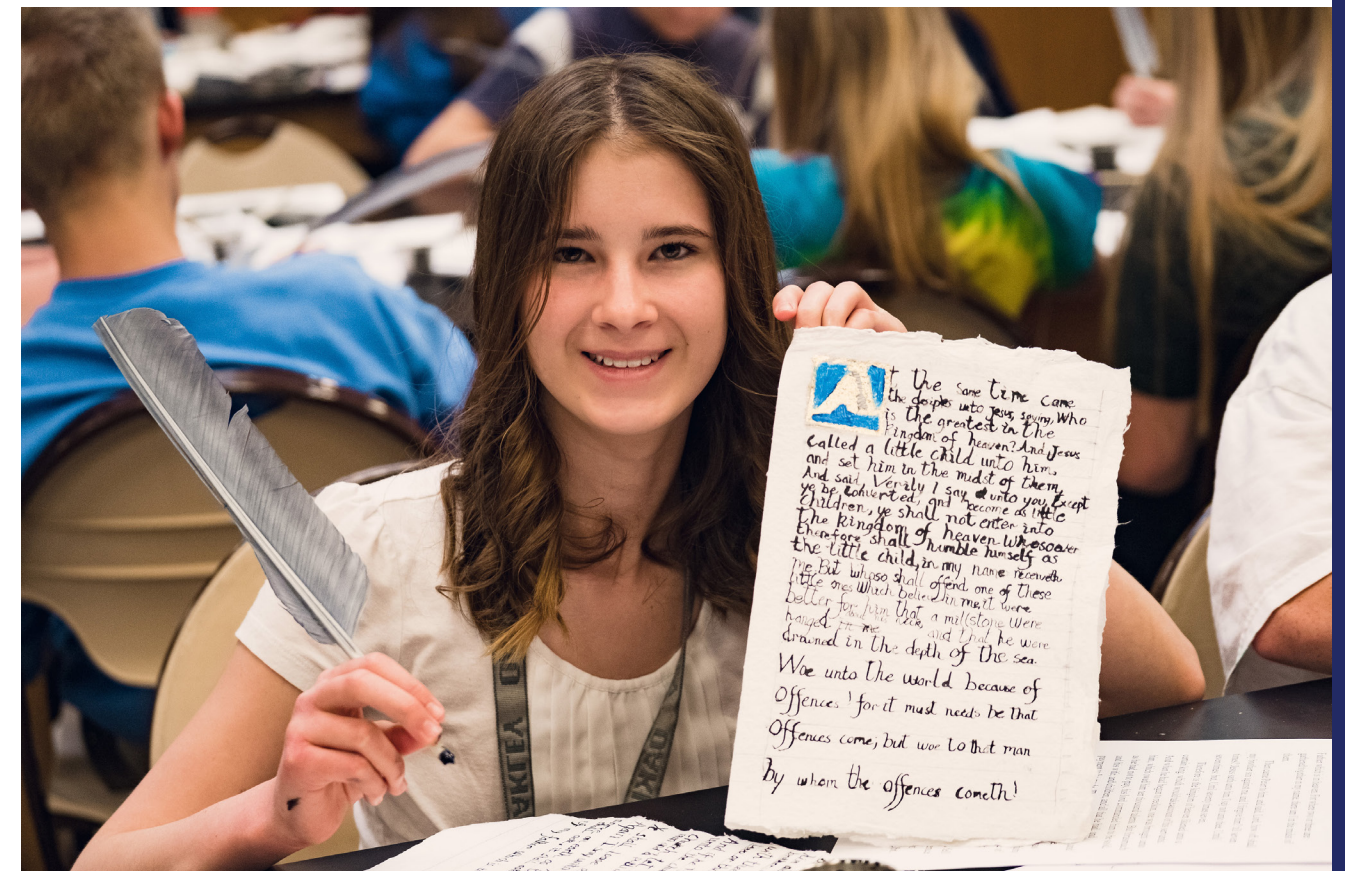

The new Family School My Way launch is July 27 at 7:00 p.m. Get ready to experience more flexibility and simplicity in creating home-based learning—any place, any pace.

New Physics Room

We're adding a new Physics room on the third level next to the biology, chemistry, and physical science rooms. This will allow us to devote an entire room to each of these subjects, facilitating better labs, better teaching, and better overall experiences for our science students.

Campus Expansion

We broke ground on May 9, and you'll see new tennis courts, track and field, baseball, and playing fields completed soon. Construction will begin on the new high school building in the spring.

Performing Arts Center (PHASE 3)

1. 300-seat Small Theater | Auditorium
2. 900-seat Concert Hall
